Subject: Approval of Flextile 5400 MaxiFlex Polymer-Modified Thin-set Mortar with USG DUROCK® Brand Shower System and DUROCK® Ultralight Foam Tile Backerboard

To Whom It May Concern:

Based on testing and evaluation conducted at the USG Corporate Innovation Center, Flextile 5400 MaxiFlex Superior-Grade, Polymer-Modified Thin-set Mortar is approved for use with and installation of USG DUROCK® Brand Shower System components and DUROCK® Ultralight Foam Tile Backerboard.

Please see USG's published literature for proper installation instructions and limitations related to DUROCK® Shower System and DUROCK® Ultralight Foam Tile Backerboard.
